Product Description

Product Description:

Introducing the BYD Full Electric Car - a completely electric transport that offers efficient power output, advanced safety technologies, and convenient driving assistance and entertainment systems.

This BYD plug-in electric auto is equipped with a high-capacity battery pack, providing a certain electric driving range in pure electric mode. With a WLTC Pure Electric Range of 59/85, you can enjoy a smooth and quiet ride without worrying about running out of power. Plus, its internal combustion engine provides additional power support for long-distance driving convenience.

For enhanced safety on the road, this BYD pure electric vehicle features advanced driving assistance systems such as active brake assist, blind-spot monitoring, and lane-keeping assist. It also has a comprehensive safety airbag system for passenger protection. Its ABS (Anti-lock Braking System) and Electronic Stability Control ensure stable driving and braking performance. Meanwhile, its reverse camera and parking assistance system make parking operations convenient and hassle-free.

The BYD Full Electric Car also boasts an entertainment system equipped with a touchscreen display, supporting navigation, Bluetooth connectivity, and audio playback. You can stay connected on-the-go with its in-car connectivity features such as smartphone integration and voice control.

With a maximum power of 81, the BYD Full Electric Car is a reliable and efficient mode of transportation for your everyday needs. Experience the convenience and eco-friendliness of this BYD pure electric vehicle. Get yours now!
